HEAVY-DUTY CORD REELS

LE9000 SERIES REELS

Our LE9000 series of reels are built with durable all-steel weatherproof (NEMA 4) construction so that they will survive in the toughest work environments. We've built the cable guide arm with thicker steel than our competitors to take extra abuse. All this while still keeping the form factor small so that your reel isn't always in the way.

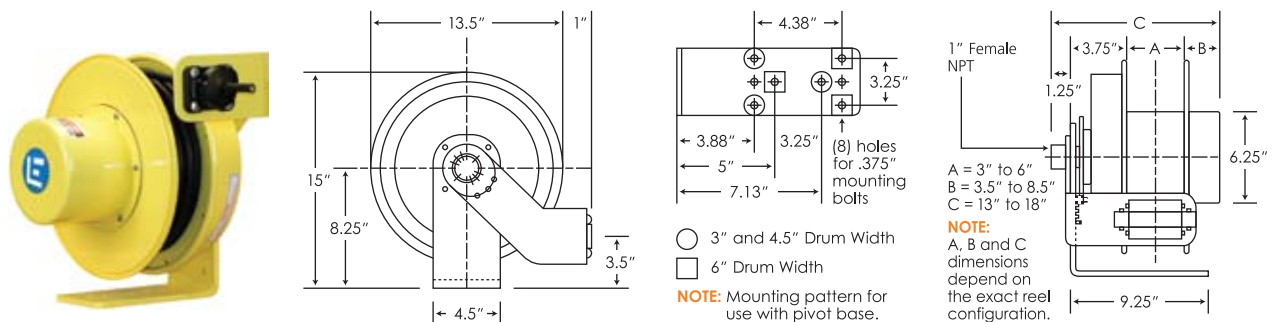

Features of the LE9000 series that can keep you working confidently include:

- + Precision construction to allow years of use with little maintenance
- + Adjustable cable guide arm (12 positions)
- + Strong ratchet that can be disengaged for constant tension
- + Adjustable ball stop
- + 6' feeder cord
- + Standard SJOW cable in various gauges
- + Cable lengths up to 50', with up to 4 conductors
- + NEMA 4 weatherproof rating

The LE9000 series reels come with a variety of cable types and accessories. See next page for some examples, or the back cover for a full list of options.

LE9500 HIGH-CAPACITY REELS

Lind Equipment also offers our heavy-duty in a high-capacity version. The same all-steel weatherproof construction from our LE9000 series reels, but in a larger format. Perfect for tough workplaces that require higher gauge cable, longer lengths, or many conductors.

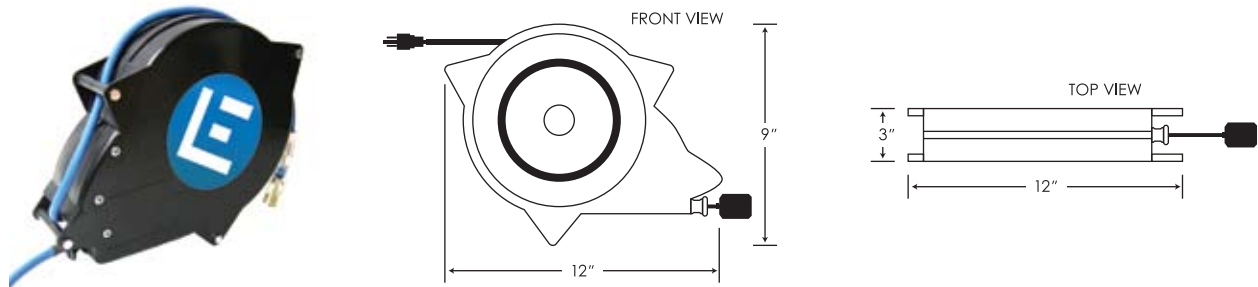

LE9500 reels come standard with up to 80' of SOOW cable and bare ends. Optional accessories can be added. See next page for accessory details, and back cover for part number ordering information.

- + Adjustable cable guide arm (12 positions)
- + Strong ratchet that can be disengaged for constant tension
- + NEMA 4X weatherproof rating
- + Adjustable ball stop
- + 6' feeder cord
- + Cable lengths up to 80', with up to 12 conductors

INDUSTRIAL-DUTY WEATHERPROOF CORD REELS

NEMA 4X REELS

Lind Equipment is proud to offer the first industrial-duty weatherproof cord reel on the market. The LE6500 series is perfect for those places where heavy-duty construction is too expensive and unnecessary. The LE6500 series is ideal in wet locations such as hospital operating rooms or hose-down areas. It has also seen great success in industry and in shipping/parking lot operations acting as a block heater cord. The LE6500 series is an excellent choice for weatherproof requirements at a reasonable price point.

LE6530 30' of 16/3 SJE00W cold weather cord, single female outlet

LE6520MD 20' of 14/3 SJOW cord, duplex female hospital grade outlet

Wall/post (**LE6500WM**) and ceiling mount (**LE6500CM**) brackets are also available.

→ Some additional configurations are available. Call for details.

LE9000/LE9500 SERIES REEL ACCESSORIES
